### Libra+ telephone ringer D936

Be alerted to the telephone – when the telephone rings a radio signal is sent to the Libra+ doorchime, which sounds/flashes to alert you.

A particularly useful addition to the Libra+ range is this telephone ringer & BT socket adaptor. The telephone ringer connects to a standard BT telephone socket and the included dual adaptor allows both the Libra+ telephone ringer unit and a telephone to use the same socket. Although not included as standard by Friedland, Connevens are including a UK telephone socket & RJ11 socket dual adaptor as without one it is tricky to use!

Requires 1 x CR2032 battery – supplied. Size: 90 x 35 x 19mm.

Libra+ D936 and dual adaptor as a pack (Please note Libra+ doorchime not included!)

42FD936P

Qty 1 £ 34.85 each

Qty 2-9 £ 33.16 each

Qty 10-29 £ 31.47 each

Qty 30+ £ 29.78 each

\* Please note that positioning a wirefree bell push or door chime on or near metal structures, re-inforced PVC doors or door frames may reduce

## Portable flashing doorchime from GreenBrook

This GreenBrook flashing doorchime is both attractively styled and attractively priced. The unit can be set to flash, chime or flash & chime together.

There is a choice of 3 chime sounds and 4 volume settings .

It has a range of approximately 100m and can be used freestanding or wall mounted. The strobe is good and the volume is very loud.

*This is the third model of GreenBrook in recent years and has been redesigned by the manufacturer to be considerably louder than the previous models. In the opinion of our evaluation panel, this is now a recommended choice due to its excellent value for money and good volume levels.*

**If you are a bulk purchaser please discuss our bulk pricing deals with Robert Manwaring on 01737 247571**
