<b>QFMG3 with 3 year warranty</b> – QFMG3 with additional years 2 & 3 warranty	<b>£ 1370.88</b>

## For individuals wishing to use a conference microphone for use in meetings

Many users of the fmGenie would benefit from being able to use their system in group seminar situations.

The QFMG4 packages include a complete fmGenie system (neck loop or direct input) plus an fmGenie conference microphone pack.

Whilst it is not possible to replicate the same quality obtained from a microphone worn on the person, the Connevens fmGenie conference microphone successfully increases the distance of useful sound pick-up.
