

Connevens offer a range of sound level meters selected by in house evaluation of a number of meters from different manufacturers. They are available with a range of accessories for varying applications. The **\*Y139A\*** and **SM-4** sound level meters are versatile but low cost models which are suitable for day to day non clinical use. The **Cirrus 252B** is a more sensitive meter ideal for clinical use.

### Basic sound level meter

For measuring the intensity of ambient noise – dual scale 40 to 120dB – excellent value for money.

Complete with zipped carrying case and PP3 battery.

#### \*Y139A\*

Qty 1 £ 42.33 each

Qty 2-4 £ 38.10 each

Qty 5+ £ 34.88 each

### SM-4 sound level meter

For measuring the intensity of ambient noise – dual scale 35 to 130dB – excellent value for money.

One hand operation, ±1.5dB accuracy, max hold facility, A and C weighting – slow and fast.

Complete with carrying case and 4 x AAA batteries.

#### +MSM4

Qty 1 £ 84.48 each

Qty 2-4 £ 80.26 each

Qty 5+ £ 76.03 each

### Cirrus 252B sound level meter

A cost effective, highly sensitive meter suitable for measuring average, fluctuating and impulsive noise. Ideal for use in clinical situations such as setting up free field audiometry sound levels and measuring speech pattern statistics. Remote microphone option very useful in clinical setting. Also very suitable for making industrial health and safety noise measurements.

BSEN60651 Type 2 (±1dB accuracy), slimline digital meter, range 25-143dB, SPL & Max, A&C weighting, Fast, slow & impulse time weightings, back lit display.

40SCR252B Cirrus 252B sound level meter (no accessories)

£399.00 each

#### Complete 252B kit

Consists of: the Cirrus 252B sound level meter, attache case, calibrator, windshield, batteries and calibration screwdriver.

40SCK252B Cirrus 252B sound level meter complete kit

£ 739.00 each

#### Cirrus 252B options & individual items

40SMO2501 Preamplifier option for Cirrus 252B

Required if microphone extension cables are to be used.

Connevens recommend having the microphone pre-amplifier option so that cable extensions can be used to enable the readings to be monitored remotely.

£146.00 each

£ 235.00 each

40SCRCK250 Attache case with foam cutouts

£ 79.00 each

MTRIPODB Tripod

£ 20.18 each

40SCRUA237 Windshield

£ 16.00 each

### SoundCheck sound level indicator

SoundCheck is a handy keyfob style Sound Level Indicator which helps you identify if the environment you are in is too loud and indicates noise levels varying from safe up to highly dangerous.

Three indicator LED's simply show the noise level that an individual is exposed to. We think the SoundCheck is a great simple way of gauging if you should be using ear protection. *This device is for guidance purposes only and is not for use as a measuring instrument.*

Supplied with 2 x CR927 batteries.

131SC Qty 1 £ 8.50 each Qty 2-9 £ 7.60 each Qty 10+ £ 6.63 each
